

Spring Meeting 2026

23-24 April

RWCMD, Cardiff & Online (Hybrid meeting)

Five top tips for getting the most out of your meeting:

1. Record your attendance

In person: Attendance should be recorded by scanning in at the registration desk using the QR code on your joining email or providing your name. Each day you attend you will need to scan in.

Online: You will receive a CPD certificate for the days you have watch online. **Viewing the content post-event will be certified, and certificates are issued 3 days after your last viewing.**

2. Give feedback

Please take the time to fill out the feedback form after each day. It is mandatory for us to generate and issue a CPD certificate but also helps us improve our conference and provides invaluable information to our speakers about their presentation.

3. Visit our sponsors

Please review the symposia in this programme and consider watching. Challenge yourself to spend 5 minutes during the next 3 days to speak to a sponsor.

4. Join the discussion

All delegates are encouraged to ask questions for the speakers and panel discussions. If you are thinking it, someone else is too, so please use the 'Ask' function on the online platform or the microphone in the room. If you're posting on X (formerly Twitter), tag us at **@GeriSoc** and use the hashtag **#BGSconf**. You can also tag us on Facebook and LinkedIn

5. Get social

Chat with attendees, join a socialising event or interact in a group discussion.

With grateful thanks to our sponsors

Our sponsors have provided a sponsorship grant towards this independent programme. They have had no editorial input into or control over the agenda, content development or choice of speakers, nor opportunity to influence. They have not had any input or influence as to the content of the programme.

About the Guest Lecturers

Information

Guest Lecturer

Professor Mumtaz Patel, RCP President, consultant nephrologist at Manchester University Hospitals NHS Foundation Trust and honorary professor at both the University of Liverpool and University of Manchester

Guest Lecture 23 April 09.30

Professor Mumtaz Patel was elected president of the RCP in 2025. She is a consultant nephrologist at Manchester University Hospitals NHS Foundation Trust and honorary professor at both the University of Liverpool and University of Manchester. Mumtaz is the first fellow of South Asian heritage to lead the RCP in its 500-year history.

Mumtaz studied medicine at the University of Manchester, qualifying in 1996, and completed her PhD in the genetics of lupus nephritis in 2006. She became a consultant in 2007 and completed her master's in medical education in 2014. Since then she has developed a national reputation in postgraduate education, assessment and training.

Mumtaz has held a range of senior roles, including RCP senior censor and vice president for education and training (VPET), and RCP Global vice president. As VPET, she led the development of a new education strategy, and during her tenure as Global VP, she expanded international engagement and launched the

RCP Global Women Leaders Programme.

She previously served as postgraduate associate dean for NHS England (Northwest) and is director for conduct and progress at the University of Liverpool's School of Medicine. Mumtaz acted as RCP president from mid-2024 before her formal election in 2025.

Guest Lecture 24 April 12.45

Marjory Warren Guest Lecturer

Navigating the challenges of Parkinson's disease- a personal perspective
Dr John Hindle, Retired Consultant Geriatrician, formerly Llandudno General Hospital

Dr John Hindle has been a pillar of geriatric medicine in Wales for over three decades and has made a huge contribution to patient care, education and training.

He originally trained in psychiatry at St Mary's, Kings College and The Maudsley Hospitals in London. He completed training in medical specialties in Hull and higher medical training in Geriatric Medicine at St Georges Hospital. He was made a fellow of both the Royal College of Physicians and the Royal College of Psychiatrists.

He has over 35 years of clinical, management, teaching and research experience in Parkinson's disease. He was a founder member of the BGS Parkinson's disease special interest group.

His research into and publications on cognitive impairment and dementia are recognised internationally. His clinical teaching and lectures have inspired many geriatricians to specialise in Parkinson's.

In 2018 he was awarded the Marjory Warren Lifetime Achievement Award. This award is given to BGS members who have made exceptional contributions to the welfare of older people over the course of their careers.

He was awarded a Senior Doctorate (DSc) in 2019 for his work on the Neuropsychiatry of Parkinson's. In retirement he continues to act as a reviewer for research and project grants. He spends the summers sailing his classic yacht with his wife in the Hebrides and is enjoying being a grandfather.

John is living with a diagnosis of Parkinson's.
