

Modified Geriatric Medicine ARCP Decision Aid – standards for recognising satisfactory progress during COVID-19 pandemic response

Curriculum Domain		ST3	ST4	ST5	ST6	CCT	Comments
SCE in Geriatric Medicine				Attempted	Attempted	Passed	
ALS		Valid or within period of grace	Valid or within period of grace	Valid or within period of grace	Valid or within period of grace	Valid or within period of grace	If the trainee is within the period of grace for the ALS, rebooking the ALS course should not delay CCT
Supervised learning events (SLEs)	Mini - CEX	3	3	3	3	3	SLEs should be performed proportionately through each training year. Completion of paperwork may be difficult during the pandemic and during this time, greater emphasis should be placed on the educational supervisor's report
	CbD	3	3	3	3	3	
	ACAT	1	1	1	1	1	

Multisource feedback (MSF)		1*	1*	1*	1*	*Completion of paperwork may be difficult during the pandemic. Trainees will need a total of 2 MSFs during the five year training programme, and ideally should not have more than one per year of training
Patient survey				1*	1*	*Completion of paperwork may be difficult during the pandemic. Trainees will need to have completed a satisfactory patient survey to obtain CCT
Quality improvement project assessment tool/Audit assessment	1*	1*	1*	1*	1*	* Completion of paperwork may be difficult during the pandemic. It may not be possible for the trainee to complete an audit project during the pandemic response. However, trainees must complete one QI project or closed

						loop audit project before CCT. One community facing project (intermediate care or continuing care) must be completed before CCT. A total of five QIP/Audit projects are expected for the five year training programme.
Teaching observation						One teaching observation must be completed before CCT
Common Competencies	Confirmation by educational supervisor that satisfactory progress is being made	Confirmation by educational supervisor that satisfactory progress is being made	Confirmation by educational supervisor that satisfactory progress is being made	Confirmation by educational supervisor that satisfactory progress is being made	Confirmation by educational supervisor that level 3 or 4 achieved	Completion of paperwork may be difficult during the pandemic. Supportive comments in the educational supervisor reports are more useful than specific numbers of SLEs in this situation

Core Geriatric Medicine		Confirmation by educational supervisor that satisfactory progress is being made	Confirmation by educational supervisor that satisfactory progress is being made	Confirmation by educational supervisor that satisfactory progress is being made	Confirmation by educational supervisor that satisfactory progress is being made	Confirmation by educational supervisor that standard consistent with completion of training has been achieved.	
Optional Higher level competencies						Optional	
Teaching	Overall teaching attendance	Satisfactory*	Satisfactory*	Satisfactory*	Satisfactory*	Satisfactory*	*Lower annual attendance during pandemic response would be acceptable. Discretion of TPD advised.
	Courses		Research methodology course attended or planned	Teaching skills course attended or planned		Management course attended or planned*	*Management course could be completed in acting up or period of grace and should not be a bar to CCT.
Educational Supervisor's Report		Satisfactory	Satisfactory	Satisfactory	Satisfactory	Satisfactory	

Multi-consultant Report	2-6	2-6	2-6	2-6	2-6	Consultant reports from consultant colleagues outside the specialty (eg supporting work in Nightingale units) will be acceptable.
