

# 2023 Spring Meeting

17 - 19 May

EICC, Edinburgh and Online (Hybrid Meeting)

## Helpful hints:

### Attendance

Online: Attendance should be recorded by clicking "Sign in for CPD today" on the event platform each day you attend.

In person: Attendance should be recorded by scanning in at the registration desk using the QR code on your joining email or providing your name.

You will receive a CPD certificate for the live days you have joined online only. Attendance post-event won't be certified but certificates are not required to claim CPD via the RCP diary.

### Give feedback

Please take the time to fill out feedback after each session. It is mandatory for CPD but also helps us improve our conference and provides invaluable information to our speakers about their presentation.

### Visit our sponsors

Challenge yourself - Please review the symposia and spotlight sessions, and consider watching. Spending 5 minutes during the next 3 days to speak to a sponsor.

### Contribute

All delegates are encouraged to ask questions for the speakers and panel discussions. If you are thinking it, someone else is too – please send it in via the Ask function on the platform or by a microphone in the room.

For the tweeters @GeriSoc using #BGScnf.

### Get Social

Socialise: Chat with attendees, join a socialising event or interact in a group discussion. See the programme for social activities including the return of our Fringe with a special Film Club on Friday

### The British Geriatrics Society acknowledges, with grateful thanks, our Sponsors:

AstraZeneca, Advanz, Astellas, Bial, Daiichi Sankyo and Ethypharm

AstraZeneca have provided a sponsorship grant towards this independent Programme. AstraZeneca have had no editorial input into or control over the agenda, content development or choice of speakers, nor opportunity to influence, except for the AstraZeneca sponsored symposia presentations. They have not had any input or influence as to the content of the programme. Sponsored symposia and Spotlight on sessions are not eligible for external CPD and are intended for a healthcare professional audience in the UK.

## Social Programme

Welcome back to inperson conference attendance!

We aim for the Spring meeting to be a space to refresh, relax and refocus.

During the conference - please take time to reflect, sit a while or catch up with colleagues.

Around the conference we will arrange some social activities which we encourage you to take part in, as well as explore the delights Edinburgh has to offer.

**Wednesday**  
**17:30 Arthur's seat: climb an extinct volcano in Edinburgh**  
 Arthur's Seat...a jagged, grassy prominence rising up from the urban sprawl of Edinburgh, offers one of the best views of the city. It's a short, slightly strenuous hike to the highest point, but absolutely worth it to look out over Edinburgh from this vantage point. Join fellow conference attendees in a guided walk to get up and go following a long sedentary day.

**17:30 Tasting tour**  
 If the urban sprawl of Edinburgh, and the culinary delights of Scotland is preferable over a glorious walk sign up for the Tasting tour. There will be a small charge to cover the consumables

**Thursday**  
**19.00 Conference dinner and Ceilidh**  
 The conference dinner returns with a Ceilidh. Sign up for a ticket during registration.

**17:30 Walking Tour**  
 If visiting the Scottish capital for the first time, or wanting to get to know the cosmopolitan town better you can join the walking tour. The city is teeming with genius and culture. On this 2 hours tour your expert guide will show you the most attractive spots of this seductive city

**Other attractions in Edinburgh**

- [Edinburgh Castle](#)
- [Edinburgh Zoo](#)
- [Dynamic Earth](#)

## Accommodation

Accommodation in Edinburgh is always at a premium, and this year keeping costs low is important. BGS have identified some good value rates at hotels with access to EICC and Edinburgh's centre.

**Click here to see available options and rates**

Other sites and booking directly with the hotels may be cheaper - please do shop around.

BGS members can find preferential rates at the Hilton chain and Yotel chains using the details below as well.

## Sustainability

This part of the programme contains information about attending the meeting in person and the changes to event delivery with sustainability in mind.

We are continuing with the use of digital platforms as a core part of our conference and meetings delivery and reducing material used at conferences through paperless conferences.

The meeting recordings will be accessible online, for you to watch on demand for 12 months, for all those attending in person. Please walk, cycle or travel by public transport where possible.

Try and remember to bring a reusable water bottle with you to the venue. Water will be available from water coolers throughout the venue as well as some packaged water. Please recycle the containers (Put the empties in the correct recycling point).

We are offering a greater choice of sustainable, meat-free options as part of our catering for the event.

Paperless meeting - We are not printing hard copies of the programme. Please consult the programme online for session details and timings: Its accessible online via your devices before and during the conference. Programmes will be posted on boards around the venue to consult.

CPD certificates are also emailed rather than printed. Remember to scan in each day you are attending at registration, or using the "Sign in for CPD today" on the online platform.

Paperless posters : We won't have physical posters at the meeting. Please look at the poster platform in advance and use the onsite computers and screens at the venue to browse and comment. Visit the poster site in advance of the meeting:

Bring your own pen and pad if you have them, however, the lanyards, pens and pads at our conference are all from recycled origins

Flexible attendance options: In person or online  
 Registration for in-person attendance provides access to the online platform as well as the on-demand recordings from the whole event. Registering to watch online is a flat fee, meaning you are able to access the whole meeting live as well as watch back on demand.

There is a flexible transfer from in-person to online attendance as clinical service and life balance require.

Improving healthcare for older people

## 2023 Movement Disorders SIG Meeting

Hybrid, in person and online  
17 March, M-Shed Bristol

- Bone Health and Osteoporosis in Parkinson's Disease
- Sleep disorders
- Delirium and psychosis
- Research outcomes and updates

BGS

## About the speakers

### Guest Lecturer

**Samantha Riley, Director of Making Data Count, National Team for Intensive Support, Chief Operating Officer Directorate, NHS England**

Samantha has worked for the NHS for over 20 years holding a variety of improvement-focused roles in different areas of the health sector including leading a system-wide improvement program in West London, undertaking a national improvement role with the Modernisation Agency, leading the national roll out of the Friends and Family Test and establishing the South East Coast Quality Observatory.

Samantha is passionate about the utilisation of data and information to support improvements in patient care and is a self-confessed 'information

In particular, Samantha is a proponent of using Statistical Process Control (SPC) to look at data rather than two point comparisons and Red Amber Green (RAG). Samantha is the author of the highly successful guides Making Data Count and over the past three years has undertaken a considerable amount of work with Trust boards to help them understand how to use data to better effect. As a result of this work, 100% of boards have made the decision to move away from RAG reporting and adopted SPC as their preferred approach.

Samantha has a large collection of techie SPC books, sunglasses and an impressive shoe collection.

## Marjory Warren

### Guest Lecturer

**Professor David Oliver, Consultant Geriatrician and General Physician Royal Berkshire NHS Foundation Trust**

Professor David Oliver is a Consultant in Geriatrics and General Internal Medicine and a former clinical vice president of the RCP and past-president of the British Geriatrics Society having also been its honorary secretary.

David is a visiting fellow at the King's Fund, alongside his clinical job as an NHS consultant in geriatrics and general internal medicine at the Royal Berkshire NHS Foundation Trust, where he was also lead clinician and clinical director. A hospital doctor since 1989, David was a consultant and clinical director at South London NHS Trust from 1998 to 2004 and was the Department of Health national clinical director for older people from 2009 to 2013.

He spent 3 years as specialist clinical adviser for the NHS Emergency Care Improvement Partnership, visiting and working with over 30 acute hospitals and healthcare systems.

David has written a weekly freelance column, 'Acute perspective' in the BMJ, which has been shortlisted for the 2017 PPA columnist of the year award. He has written for several other professional and general publications, and has published more than 120 research papers, reviews, book chapters and editorials.

In addition to his medical qualifications and research doctorate, David has master's degrees in health leadership, healthcare ethics and law, and postgraduate diplomas in health service management and medical education. He was recently named in the Health Service Journal's top 100 clinical leaders and top 50 integrated care leaders lists.

# Join us

in improving healthcare  
for older people

## Who can join?

Anyone specialising in the healthcare of older people can join the BGS. We welcome all members of the multidisciplinary team at all stages in their career, from university to retirement.

## This includes

Doctors • Nurses • Therapists • Pharmacists • General Practitioners • Researchers into ageing and age-related disorders • Allied Health Professionals • NHS managers

And more!

## Join the BGS for FREE as a student!

BGS membership is free for medical students, student nurses and student therapists, as well as Foundation Year doctors and nurses/AHPs in their preceptorship year.

Simply visit [www.bgs.org.uk/join](http://www.bgs.org.uk/join) to sign up - you will need to provide supporting documentation to confirm your student status during the membership application. Your membership will be active instantly while we review your information.

This means you can instantly start enjoying all the benefits of being a BGS member, including:

A programme of **accredited CPD events** delivering 25 external hours for less than £500

**Discounts** on fees for BGS events (saving up to £150 per event)

Access to **best practice guidance** on topics such as frailty and care homes

**Networking** with other specialists and experts in the care of older people

Digital **subscription** to our high impact factor scientific journal, *Age & Ageing*

...and much more!

Become a member today! Join online at [www.bgs.org.uk/join](http://www.bgs.org.uk/join)
