

Spring Meeting overview

1-3 April 2020
University of Manchester

The BGS Spring meeting will cover the latest scientific research and the best clinical practice in care of older people. Our ageing population is stimulating extensive NHS service redesign to deal with the challenge of caring for larger numbers of older people both in and out of hospitals. This conference will cover core areas of interest to all specialists responsible for the healthcare of older people.

In association with:

Meeting aims

- Further attendees' overall knowledge and understanding of current research and practice in healthcare of older people in core and difficult areas
- Improve attendees' skills in the treatment and healthcare of older people
- Inspire attendees to achieve personnel excellence in healthcare of older people
- Take away new activities and ideas to progress their workplace's services

Topics

- Dementia and Related Disorders
- GI and Nutrition
- Dental and Oral Health
- Fitness to Drive
- Bladder and Bowel health
- Falls and Syncope
- End of life care
- How to CGA
- Healthy ageing and health promotion
- Clinical research in over 65s

Who should attend

- Consultants & specialist doctors in geriatric medicine
Doctors in related specialities
- GPs with an Extended Role in Older People and GP trainees
- Nurses and allied health professionals
- Advanced and Specialist practitioners
- Consultant Practitioners/Consultant Nurses
- Internal Medicine Trainees and Foundation year doctors (especially those considering a career in geriatric medicine)
- Researchers into Ageing and Age Related Conditions
- Medical, Nursing, Allied Health professional students

This programme has been submitted for **18 CPD credits** to the Royal College of Physicians.
